French Rhône Blends

Consisting of a majority of the following three grapes: Syrah (providing intensity and dark fruit flavors), Grenache (lighter of the three grapes, light red fruits, crisp), and Mourvedre (bold fruits, structured power). These blends vary in profiles but all provide much excitement in the glass.

Merlot - United States

Merlot gets a bad reputation, this wine can show vivid fruit flavors of cherry and plums with a luxurious soft finish that will linger on the palate. Best examples can rival Cabernet for intense structure and tannins.

Cabernet Sauvignon - Bordeaux

Bordeaux introduced the concept of classification in 1855 under Napoleon III, and it now serves as an expression of quality and prestige worldwide. The principle of the crus classés ("classified growths") perfectly illustrates the synthesis of a terroir's typical characteristics and dedicated human intervention. They are ranked as PREMIERS CRUS (1st Growth), DEUXIÈMES CRUS (2nd Growth), TROISIÈMES CRUS (3rd Growth), QUATRIÈMES CRUS (4th Growth), and CINQUIÈMES CRUS (5th Growth). There are absolutely exceptions to qualities in this system.

Cabernet Sauvignon - California

It wasn't until the 1970s and 1980s that Napa Valley showed the world it meant business with Cabernet Sauvignon. In 1976, a private wine competition in Paris judged by several top French trades and journalists compared current releases of Bordeaux and Napa wines. Later called the "Judgment of Paris," the tasting results showed that American Cabernet could stand toe-to-toe with the most important Bordeaux wines of the time. Incredible wines that vary due to diverse microclimates and winemakers' vision for their wines.
